

Dario Chic

Valencia, ES | (34) 673 17 24 98 | contact@dariochic.dev | Portfolio [@dariochic.dev](https://dariochic.dev)

Skills

Frontend Core | React.js, Next.js, Astro, JavaScript ES6+, TypeScript, HTML5, CSS3+

Mobile & Cross-Platform | React Native (CLI & Expo), Flutter, PWAs

UI & Styling | Responsive Design, Tailwind, SCSS/SASS, CSS Modules, Motion

UI/UX Design Principles | Figma

Backend & Cloud | Supabase, Node.js, Express, PostgreSQL, MongoDB

Tools & DevOps | Git, GitHub, GitLab

Languages | Spanish (Native), English (Professional Proficiency)

Experience

Frontend Engineer, 3MIT Enterprise – Caracas, VE

Nov 2022 – Present

- **Spearheaded** the end-to-end development of a custom sales automation application, leading architecture design, database modeling, and integration with **external ERPs**.
- Maximized system efficiency by slashing HTTP requests by **80%**, resulting in a **45%** faster user experience through comprehensive API consumption refactoring.
- Accelerated development velocity by **100%** and decreased bugs by **30%** by refactoring over **4,000 lines** of monolithic code, applying Clean Code, SOLID principles, and scalable architecture.
- Stabilized critical financial processes by redesigning checkout and order configuration logic, resolving **15+** complex QA-identified issues to boost platform reliability and user retention.
- Achieved **100%** cross-platform coverage (Android, iOS, and Web) with a single codebase by implementing an efficient Flutter architecture, significantly reducing development and maintenance time.

Featured Projects

Founder & Lead Product Engineer, Foodier – Valencia, ES

Mar 2025 – Present

- **Directed** the lifecycle of a **B2B SaaS product** from ideation to launch, defining the product roadmap and technical architecture to transform a market need into a scalable platform.
- Engineered a **white-label UI architecture**, empowering merchants to fully configure their visual identity and adapt the application's look and feel via dynamic style variables.
- Automated sales closure by building a checkout system integrated with the **WhatsApp API**, converting user carts and location data into structured, process-ready orders.
- Designed a dynamic logistics pricing algorithm integrating the **Google Maps API** to automate shipping cost calculations based on distance, custom ranges, zones, or fixed rates.
- Architected a **multilingual data structure**, enabling merchants to seamlessly manage translations and eliminating language barriers with international customers.
- Integrated a **Business Intelligence** module to process and visualize detailed traffic metrics, providing clients with actionable insights for data-driven decision-making.

Education

Continuous Learning & Self-Taught | Completed 100+ technical courses and guides | 2021 – Present

Honors & Awards

TOP PERFORMER - Distinguished Member x8, 3MIT Enterprise LLC

- Consistently recognized as the highest-performing employee (Top Performer) in 8 out of 10 evaluations within the merit program.
